Creativity means solving the small problems people encounter in their work and daily lives,

HISTORY

one by one through the use of creative ideas.

1905 Zentaro Kuroda; founder of KOKUYO, opened the Kuroda ledger cover shop, a shop manufacturing covers for Japanese-style account ledgers.

1917 Adopted the trade name KOKUYO. Meaning the 'honor of the land'.

1957 The nationwide KOKUYO Association of specialized shops was launched. Specialized shops that exclusively handled KOKUYO's products distribution throughout Japan.

60-66 KOKUYO entered into office furniture business. In the same year released of steel filing cabinet.
1965 and 1966, steel desk and office swivel chair were introduced.

69-72 Head office in Osaka opened in 1969 that caused a sensation in the industry.
KOKUYO listed on the first sections of the Tokyo and Osaka Stock exchanges

75-81 A series of desks and chairs for school children was launched. In 1981, KOKUYO invented the first height-adjustable table; the KuruKuruMeka, adapting the growing years of children. The table eventually become a household name.

1979 Completion of new office building in Tokyo; Shinagawa, and sales volume reached 100 billion Japanese Yen for the first time.

93-99 Mie and Shibayama factories in Japan were established and followed by the operation of first oversea factory in Malaysia in 1999.

2002 KOKUYO initiated the "KOKUYO DESIGN AWARD". A platform for young aspire designers to showcase their talents, innovation and inspirations.

00-04 Establishing of oversea business in ASEAN. In 2000, KOKUYO Malaysia office in Kuala Lumpur was established and followed by Thailand's Bangkok office in 2004

2005 KOKUYO marks the 100th Anniversary celebration with the newly design company's logo, ushering the next century.

08-10 As a sponsor for Beijing Olympic. In 2010 participated Shanghai Expo in the Japanese industrial Hall.

2012 Opened of Shanghai's flagship showroom in the heart of the city. And on the same year founded KOKUYO's Singapore Branch office; functioning as the hub of oversea marketing office.

2013 Reacting to the changing work trend in Japan, KOKUYO opened it's first Co-working space; Creative Lounge MOV in Shibuya.

2013 First ASEAN dealer's showroom in Jakarta, Indonesia was official opened.

2015 Announced the merger of KOKUYO stationery and furniture business as one business unit. Consolidating the role as the main office supply in Japan.

15-16 Developed the height-adjustable table and collaborative furniture, in a way responding to the evolving work style and trends across the world.

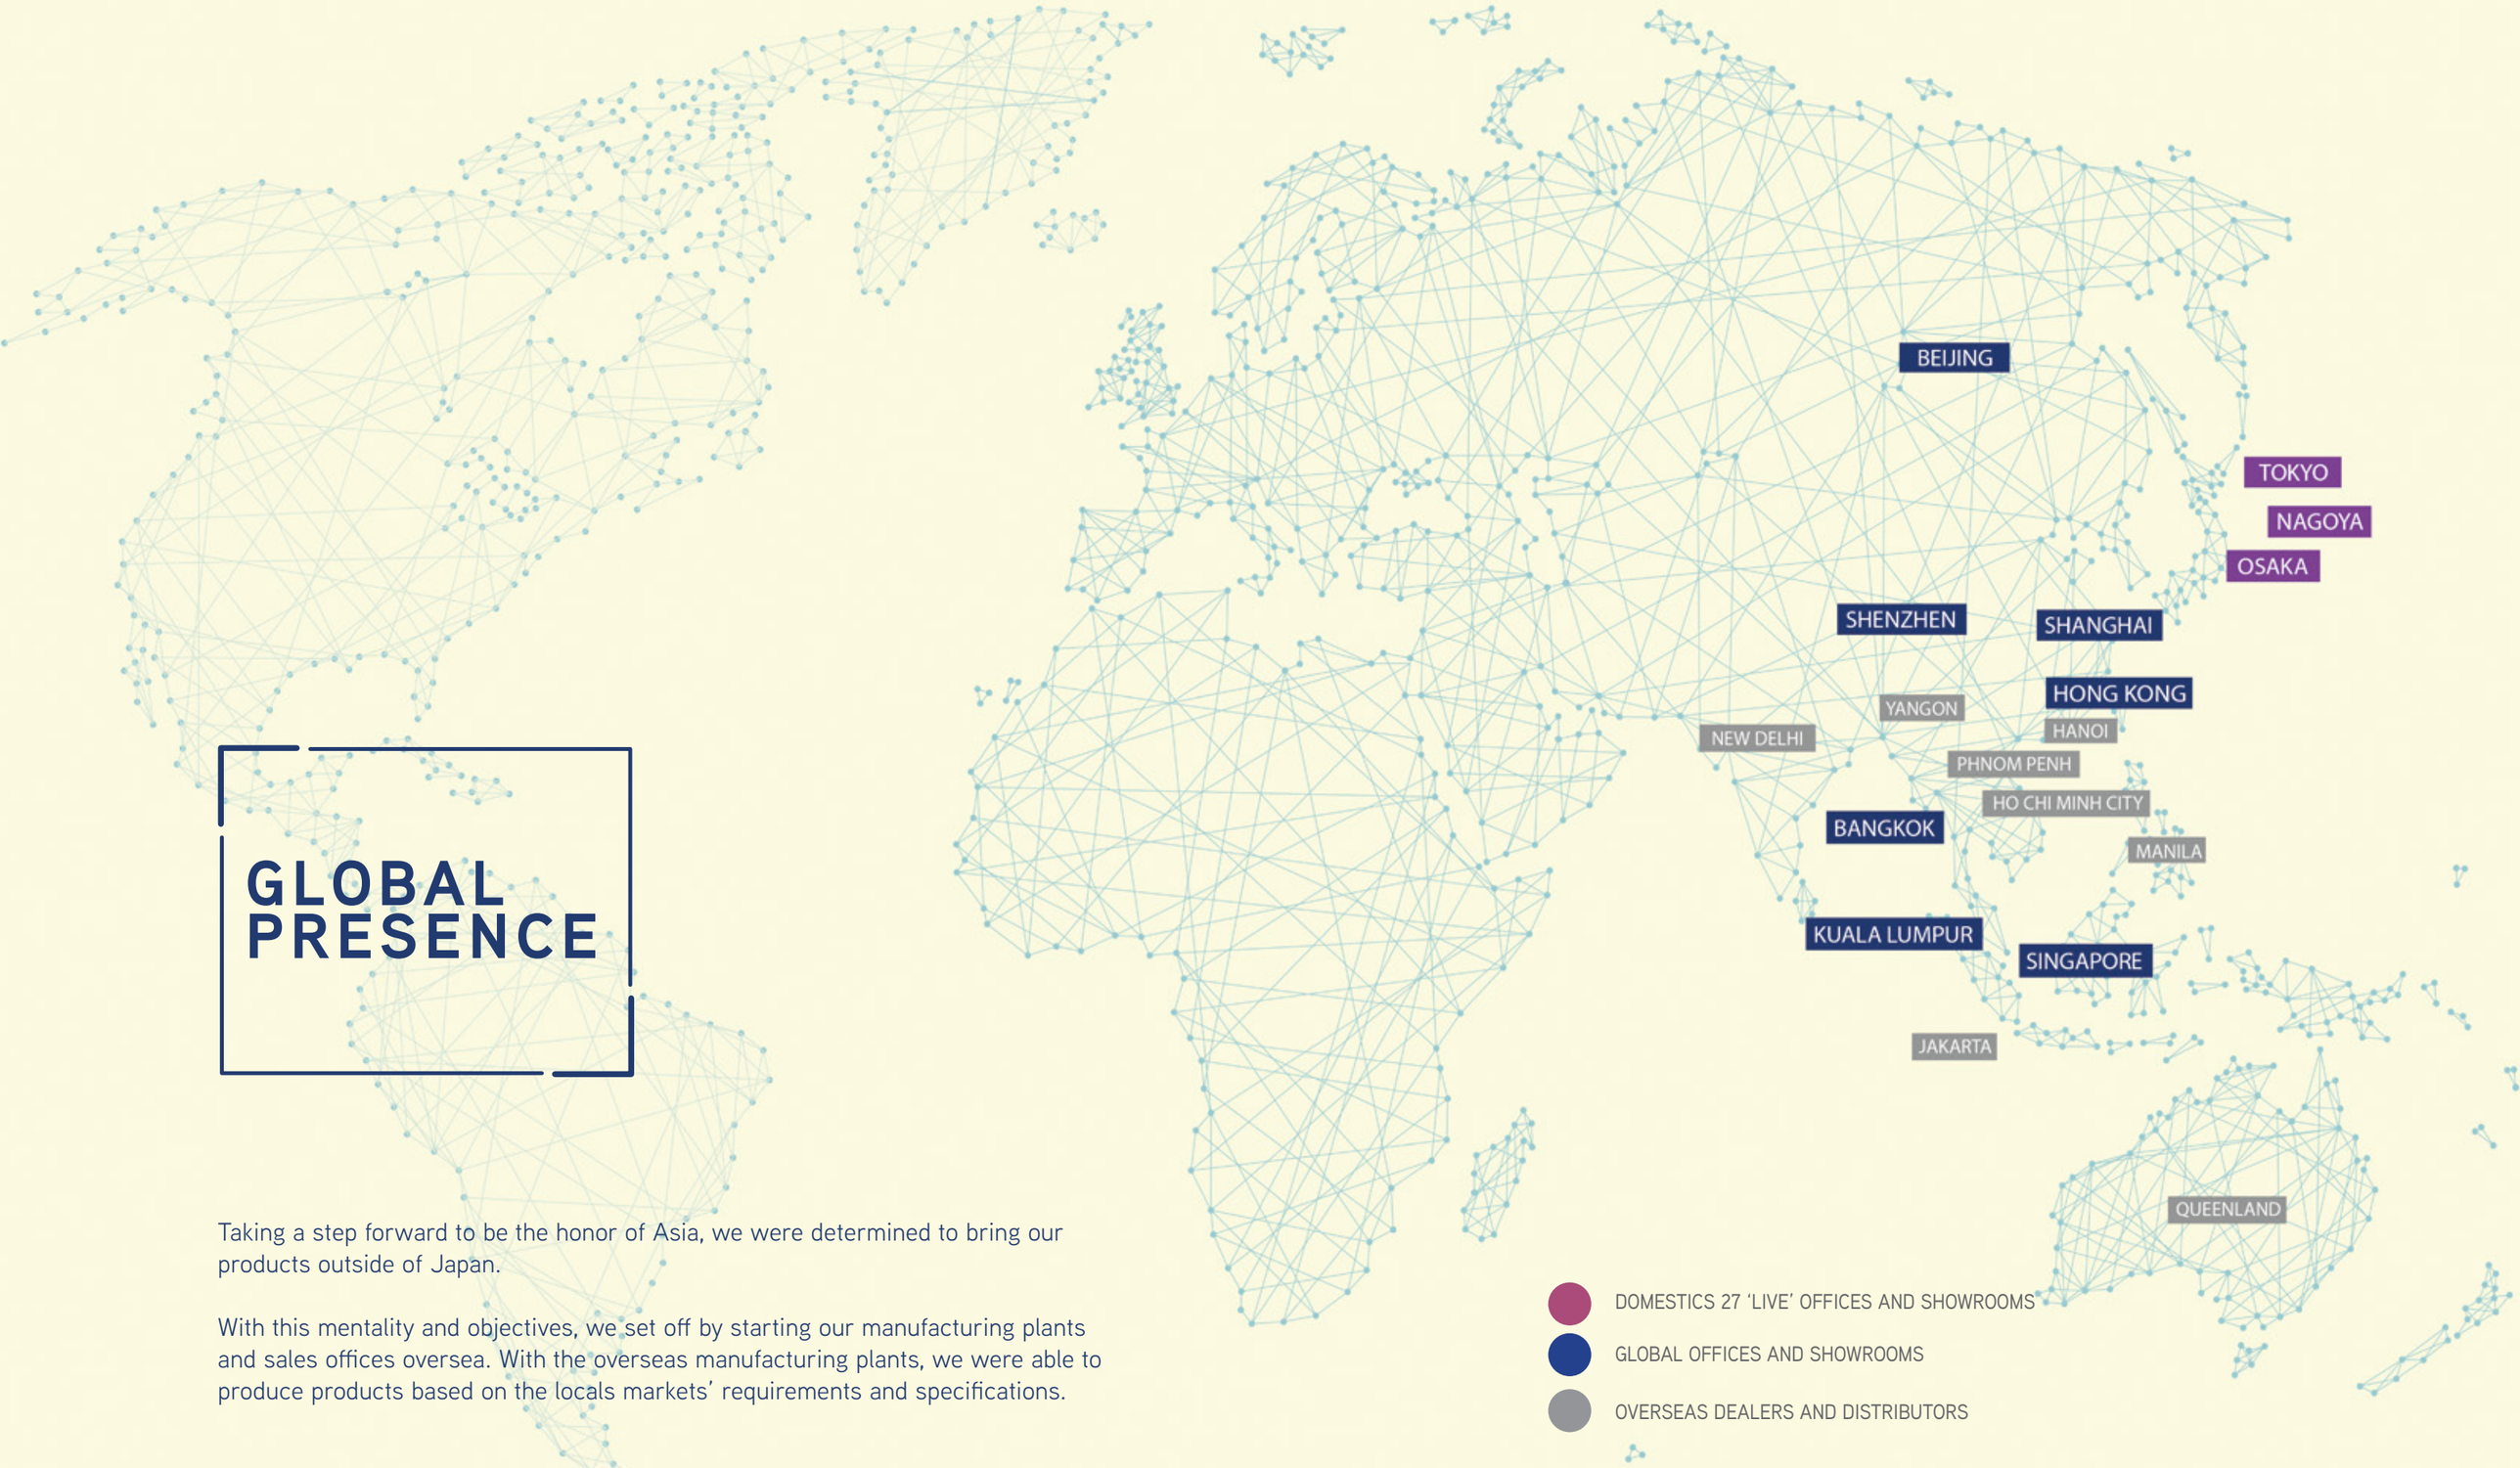

2017 Opened it's first work + life concept store. TOT (Think of Things) that combined both work and life style. A space fills with café, retail and multi-purpose studio at Harajuku, Japan.

NEXT 100 YEARS

GLOBAL PRESENCE

Taking a step forward to be the honor of Asia, we were determined to bring our products outside of Japan.

With this mentality and objectives, we set off by starting our manufacturing plants and sales offices oversea. With the overseas manufacturing plants, we were able to produce products based on the locals markets' requirements and specifications.

THE LIVING WORKSPACE

Communicate what is needed, when it's needed. The physical workplace is an important agent within an organization that can enable openness, transparency and flexibility, helping organizations to create the conditions for employees to engage, communicate, and collaborate.

When employees are engaged and want to work in new ways, thus seeking the meaningful at work and workplaces, that enables them to make meaningful connections and performance.

THE WORKING ENVIRONMENT

ACTIVITY-BASED WORKING

The workplace needs to enable collaborative work, and it needs to entice people to get together. Give the workforce a physically comfortable environment with technology that enables team members to share information easily and you get a boost in productivity and efficiency.

People want to feel a connection to the places where they work, where they can see themselves in the space, versus something that feels imposed upon them.

YESTERDAY

Mobility Profile Type / **01**

This type of profile perform most or all of work activities at a single desk setting and rarely use other locations within the office

TODAY

Mobility Profile Type / **02**

This type of profile perform majority of work activities at a single work setting but sometimes uses other locations within the office

TODAY

Mobility Profile Type / **03**

This type of profile perform some of the work activities at a single work setting but often use other locations within the office.

TOMORROW

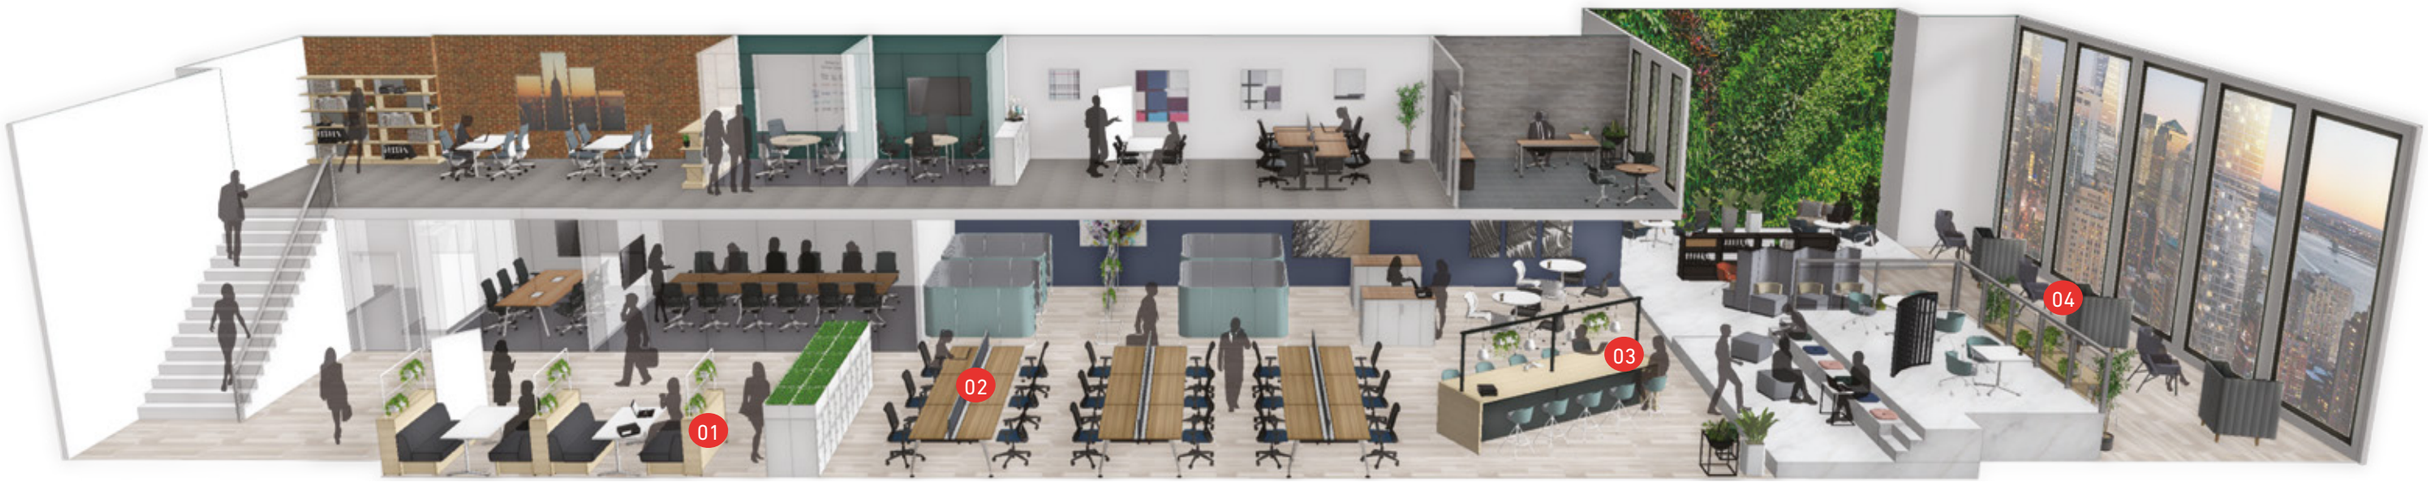

Mobility Profile Type / **04**

This type of profile use multiple work settings and rarely base at a single location within the office. Apart from office. Example cafes.

THE LIVING WORKPLACE

First of all, office is a place where people work and when you work in an office for more than 7-8 hours, you get all of your ideas and inspirations from your surroundings. This way, it's very important that your environment is capable of allowing you to think openly and widely.

Office furniture is an art of design and modesty which provides all the requirements to the users so that they can think better around this type of furniture units.

01 / Collaborative Spaces

Spaces dedicated for collaboration and teamwork have the strongest impact on productivity.

02 / Hot Desking Spaces

Hot-desking cut down on unnecessary expenses by eliminating the waste of excess space. It's useful for companies where workers spend a lot of their time traveling, or spend part of the week working remotely.

03 / Social Spaces

Spaces that blur the boundaries between work and home create a comfortable environment, invite people to relax and think outside the box.

04 / Concentration Spaces

Most people toggle between introverted and extroverted modes throughout their work day. Spaces that allow people to escape, ponder and disconnect support cognitive and emotional well-being.

WORKFIT

Fit to Your Style

Flexibility is another key point as well. As spaces are getting more compact, there becomes a need to have items that are both space saving, and have multiple usage. Ranging from workbenches to management and meeting tables, with different types of personalisable discussion areas, WORKFIT is able to cater to different needs any office space may need.

PREPARE 01

Providing the space for light work and touch down spot before moving to the next action.

FOCUS 01

Semi-open seat to fit into the office.
Individual table can be place together, place a panel in between for privacy and focusing.

CHAT

This work style is made for social space. Ideal for gathering and a quick catch-up within the office.

CO-WORK

This work style enable a close working relationship with another co-worker whenever you need it.

PREPARE 02

A simple high stools and desk for collaboration and quick discussion area.

FOCUS 02

This work style fit well for individual focusing and time away from the rest.

DISCUSS

Fit for a quick gathering and discussion. Equipped with storage cabinets for better filing purposes.

MANAGE

Fit for open management. This table better facilitates the Manager's daily work.

Add on acessories such as low partition can be place inbetween the table, it acts as a privacy also for displaying of items. The desktop shelving comes with socket output, so that you could charge your devices.

Add-on panels allows different usage, suitable for individual concentration and privacy. It comes with varies heights and selection of fabric upholstery.

The wire tray is situated in such a way that allows greater use of table surface, giving you more space to work in.

The middle leg can be set in further for more legs room as well as allows for more users.

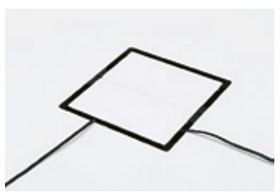

As more and more people are heading towards the open office space design, WORKFIT is designed with the new-generation working style in mind. Its open design style facilitates better communication between colleagues and co-workers, and allows for a quicker exchange of information amongst parties.

The worktop shelving system allows for different working style. It allows to place any accessories and stationery, and at the same time it will not obstruct the wires from the wire cable box.

Seamless wire management, that allows the wires run freely under the worktop shelving system.

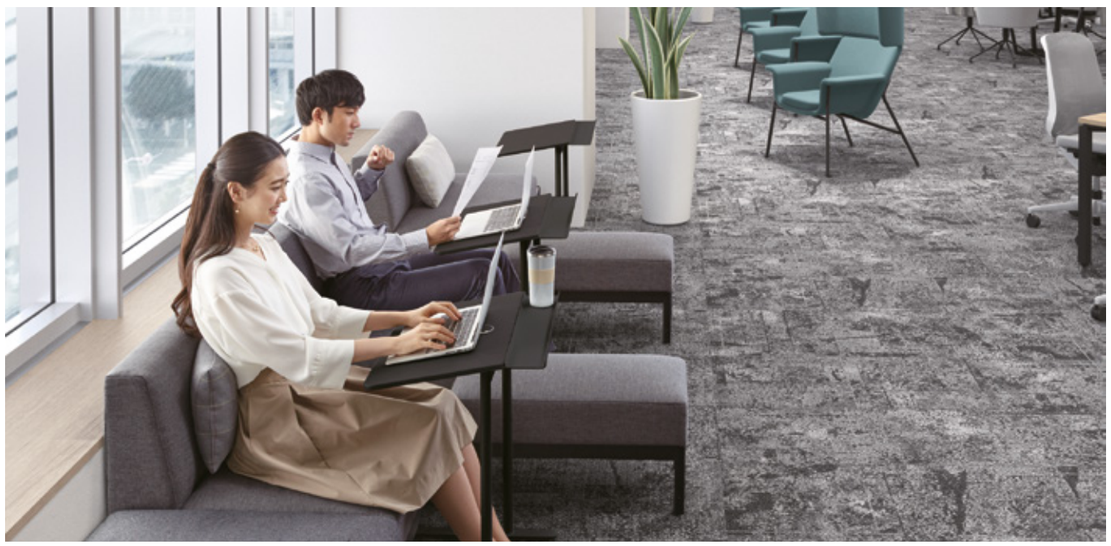

The wiring cover comes with an option of for different opening. Be it from the edge or the middle of the cover tray.

When the caster legs is put to lock position, the stopper contacts the floor firmly thus prevent even the slightest movement.

Collesso

Collaboration and social space is the way forward in all organization. Collesso sofa system is designed to support collaboration, casual discussion and social gathering.

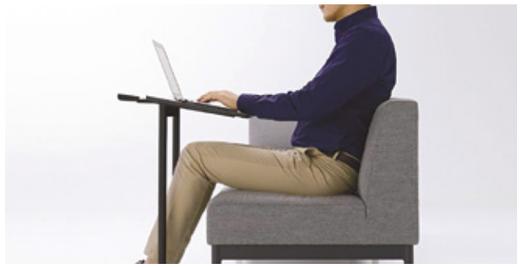

The sofa offers different and varies configurations that support different level of collaboration.

Sharp, clean lines give the sofa the modern look, without sacrificing comfort and appearance.

A system structure that can freely combine seat, top board, and frame according to the layout. In addition, it can adapt to various space design based on abundant colors variations.

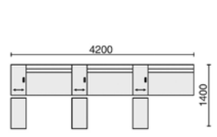

With the cushion back design in curve shape, it allows the user to sit comfortably in a diagonal position.

The sofa can be configurate in a row for more users to use and work on without feeling too close to the person next to you.

The Human Body is Built to MOVE

Humans are creatures that love to sit.
However, the human body is not built to continue sitting for a long time to work on the computer.
There are more than 360 joints and about 700 skeletal muscles in the human body, and as they move, they enhance the performance of nerve cells.

In short, the human body is built to move,
KOKUYO's "ing" was borne out of
this mechanism.

UNRESTRICTED MOVEMENT

As the body is guided by the correct posture and allowed to move freely. With the gliding mechanism, it allows the users to move their body freely while sitting. This way, it improves body circulation and work performance.

Air Lumbar Support Technology

The key component of that functionality is its concealed adjustable lumbar support air bag. It allows the shape of the seat back to be customised to suit the shape of the user's spine.

The Air technology assist in pumping air from the lumbar bar that inflate the shape of the lumbar bar to give a better support at the lower lumbar area. The air could also released by pulling the lever backwards to release the air to find your most comfortable support.

OASIS OF STORAGE

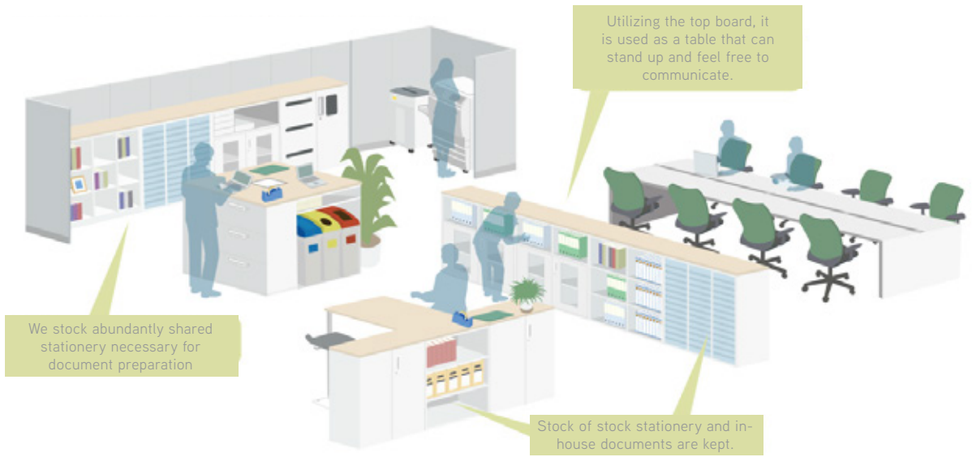

Different amount of time at different places. Since we know that organization are composed of members that spend their time at different places in the office, this is where ABW can kick in to help organisations to better manage the spaces allocated to each departments.

01 / Lounge Area

An open shelf that serves as a divider within the office space. The cabinet can be used as a bookshelf or a display stand. Is is accessible from both sides, and is ideal for displaying shared information.

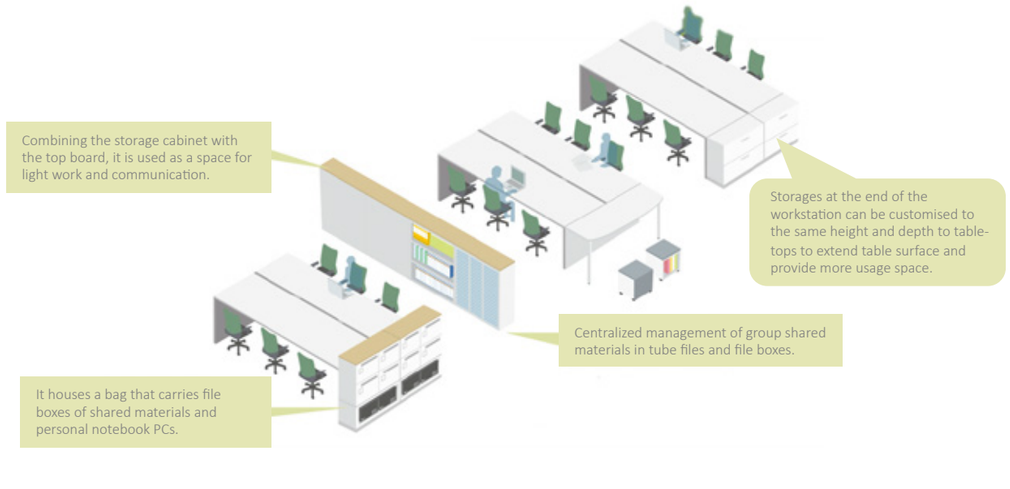

02 / Utility Area

By arranging storage boxes that store stationery at the copier corner, everyone can easily access and use of the document . It becomes possible to work on the spot and increase work performance and efficiency.

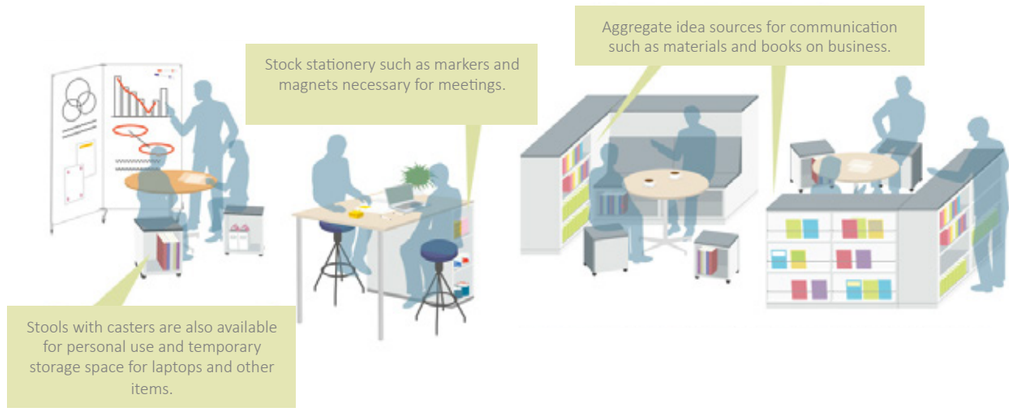

With the minimizing of fixed seating, lockers are perfect for the storing of personal items. Instead of wasting precious locker space, compartmentalized storage locker where space can be managed efficiently at all times.

03 / Office Area

By placing a storage cabinet between the desks, common items and documents can be shared between departments with minimum fuss. It can also enable speedy communication if it is also used as a standing workspace.

04 / Communication Area

By installing a bridge top board combining storage boxes and stool storage with casters in an area where you want to exchange lively opinions, you can create a place for quick communication, touch down or even social gathering.

OUR COMMITMENT TO YOU

In KOKUYO, we believe that creativity is reflected not only in visual aesthetics and practicality of the products, but also in the supporting services of the products and the products' alignment with the buyer- and user-needs.

Adhering to the principle of "create better value for customers through innovation," we are committed to providing customers with innovative and practical products, while focusing on providing quality assurance services. Within the scope of this warranty, we will be delighted to provide you with warranty services and solutions to problems that may arise during the use of our products

CSR MANAGEMENT

THE CORPORATION WE WANT TO BE IN THE FUTURE

KOKUYO aims to be a Life & Work Style Company useful to society by “improving Quality of Life” of persons by their improved working/ learning/ living through our products and services which provide the value of improving clients’ creativity.

KOKUYO has built its history of a hundred-and-some years by earnestly facing issues of customers as they changed with the times and finding the solution for each one. This attitude remains the same today, though it is said to be uncertain times as societal and commercial issues are entangled with increased complexity.

Under a new management system, we will do our utmost to provide value which contributes to the realization of a sustainable society by placing importance on facing issues of both the customer and society while being flexible in the forms solutions may take.

By seriously accepting and confronting the difficult challenges that face customers and communities, we aim to help realize a sustainable society.

/
Hidekuni Kuroda
Representative Director of the Board.
President and CEO

/ FOR CUSTOMERS

Without being satisfied with the present conditions, we continue to improve the safety and quality of our entire product line and services. Strive to continually innovate society through our business operations by developing new products and services.

/ RESPECT FOR HUMAN RIGHTS

Respect the human rights of all individuals involved with or affected by all of our corporate activities. We support work environments free from discrimination, and do not approve of child labour or forced labour practices. Strive to accept each and every employee’s individual character and personal values, and become a company where many different human resources can fully express their abilities and develop themselves.

/ CORPORATE ACTIVITIES

Conduct transparent, just, and free competition and business transactions while keeping sound and correct relations with politicians and governmental bodies. In order to become a trusted company, we strive for business partner relations that are consistently fair and built upon a foundation of reciprocal cooperation, allowing for mutual growth. Recognize our responsibility to increase our corporate value for stockholders, and maintain a corporate management style that earns the trust of society through its transparency and virtue.

/ REGIONAL COMMUNITIES

Strive to be a trusted ‘corporate citizen’ on both regional and national levels via proactive interaction and planning with regional communities, while respecting regional culture and customs and encouraging their advancement.

/ ENVIRONMENTAL CONSERVATION

Concentrate the wisdom of each of our employees, and align the actions of our entire company in order to assist in reaching solutions for the common environmental problems facing the world today. By developing Eco Products, we strive to decrease the environmental burden over the life cycle of these products and to introduce new environmental engineering and green procurement techniques, contributing towards the advancement of a ‘low carbon society’.
